

Route Information for 13, 45 and 65 Mile Routes:

8:30 Start: The 45 & 65 Mile Riders depart, soon followed by the 13-mile riders, all at our ride location at Krause Springs in Spicewood. Please line up with advanced riders toward the front and leisurely riders toward the rear.

Route Comments: All routes are on roads that have not been closed to traffic, so ride aware and take care. The wildflowers are fantastic this year and you'll enjoy miles of them as you roll across the beautiful Texas hill country.

13-Mile Route: You'll ride across fairly flat terrain for 6.5 miles into a welcoming crew at Pit Stop 1 where you turn around and ride back to Krause Springs to a grand celebration, pool, lunch and festivities.

45-Mile Route:

- From the start at Krause Springs, the terrain is fairly flat on lightly traveled roads into **Pit Stop 1** (mile 6.5), where the 13-mile riders reverse back to Krause Springs.
- The 45 & 65 mile riders continue past Pit 1 and enjoy a few more miles of flat/descending terrain until mile 9.6, when you start a series of rises bringing you into **Pit Stop 2** (mile 21) and shortly after to the highest point on your route.
- You then ride somewhat downhill, with a few rises, for almost seven miles into **Lunch Pit** (mile 30 or so) at Cypress Mill, where 45-milers reverse.
- After Lunch, 45-milers reverse while 65-milers can continue (until Noon) on rolling terrain out to Pit Stop 4 before reversing to rejoin the 45-route. Since it's an out-and-back road, if it's before Noon, you are welcome to ride part of the way out toward Pit 4 and then turn around at will (we'll have a sign showing where to turn around for a 50-mile ride for the day).
- Leaving lunch for the finish, you'll reverse for ½ mile, then ride on a quaint, mostly flat, ranch road for several miles. Please be careful when crossing cattle guards and especially at the slippery low water crossing. Soon following is a short but steep hill, on top of which is an amazing view at **Pit Stop 6** (mile 36.1).
- You'll continue on hilly terrain for three miles, crossing another slippery low water crossing (please walk across both low water crossings!), before ascending into our short Ride-of-Silence before enjoying a grand downhill almost all the way to the **finish at Krause** (mile 44).
- Routes close at 4 PM. If you are not past a pit by the time it closes, you will be sagged to the next open pit stop. There are medical volunteers helping with first aid issues at each pit stop and a roving van with Bicycle Sport Shop techs to assist with serious mechanical problems.
- Please bring a couple of extra tubes in case of flats.
- Ride safely, enjoy the vistas, and have a great day in the Hill Country!

65-mile Route: This route follows the 45 mile Main Loop above, but adds 19 miles. For terrain issues into Lunch Pit, see above.

- At Lunch Pit Stop, around Mile 30, you have the option to ride a quiet, rolling, 9.5 mile spur (19 miles out-and-back) before rejoining the 45-Route. To enjoy this option, however, you **MUST** pass the Lunch Pit before **NOON**, when the entrance to the 65-spur closes.
- Once on the spur, you can turn around at will or, if you go the distance, you will be celebrated by the crew at **Pit Stop 4** (mile 39.6).
- If you want to ride an even 50-miles for the day, look for the "Riding 50-Miles? Turn here" sign on the spur.
- You must start your return from Pit 4 by 1:15 when it closes and be off the spur by the time lunch pit closes at 2:15. Century riders will also be crossing this spur on their way in from the Century Loop.

- Leaving lunch for the finish, you'll reverse for ½ mile, then ride on a quaint, mostly flat, ranch road for several miles. Please be careful when crossing cattle guards and especially at the slippery low water crossing. Soon following is a short but steep hill, on top of which is an amazing view at **Pit Stop 6** (mile 55.4).
- You'll continue on hilly terrain for three miles, crossing another slippery low water crossing (please walk across both low water crossings!), before ascending into our short Ride-of-Silence before enjoying a grand downhill almost all the way to the **finish at Krause** (mile 63.2).
- Routes close at 4 PM. If you are not past a pit by the time it closes, you will be sagged to the next open pit stop. There are medical volunteers helping with first aid issues at each pit stop and a roving van with Bicycle Sport Shop techs to assist with serious mechanical problems.
- Please bring a couple of extra tubes in case of flats.
- Ride safely, enjoy the vistas, and have a great day in the Hill Country!

Mileage and Hours of Pit Stops

Pit Stops:	Hours:	13	26	45	65	90
		Miles	Miles	Miles	Miles	Miles
Pit One	8:30 to 10:30	6.5	–	6.5	6.5	(not open)
